

IBRAHIM GUNAWAN

FRONT END WEB DEVELOPER

Jakarta, Indonesia | (+62) 85174361878

baimgunawan1@gmail.com | [linkedin.com/in/ibrahim-gunawan](https://www.linkedin.com/in/ibrahim-gunawan) | ibradev.vercel.app

An undergraduate student specializing in web development with a primary focus on Front-End. Has practical experience developing web applications using Vue and React, along with a solid understanding of back-end integration. Also experienced in designing user interfaces and building structured, maintainable web applications.

PROFESSIONAL EXPERIENCE

Front End Developer Intern

August 2025 - April 2026

PT WIR Group Asia

- Contributed to the development of the Alfa feature on Livin' by Mandiri (Sukha) platform by implementing UI enhancements, building a wishlist feature, and supporting promotional campaigns such as Ramadhan free shipping through API integration and frontend logic.
- Contributed to the development of the Ti Oan Market e-commerce platform and internal dashboard by building user address management features, enhancing UI, and supporting role-based transaction monitoring for staff.

Front End Developer Intern

January 2025 - July 2025

PT Qtera Mandiri

- Built a web-based asset management application that enables companies to digitally manage, track and optimize physical assets using RFID, NFC, QR, and IoT technologies. Developed intuitive and responsive user interfaces to support real-time asset monitoring and improve operational efficiency.
- Collaborated within a Micro Frontend architecture to integrate frontend modules with backend microservices using TypeScript DTOs for type-safe API communication. Coordinated with team members to ensure seamless integration, scalability, and maintainability of the application.
- Implemented end-to-end and unit testing using Cypress to ensure application stability and validate user flows.
